### **A Profile of Smart China Expo**

With approvals of the CPC Central Committee and the State Council, Smart China Expo (SCE) is jointly organized by the Ministry of Science and Technology, PRC, the Ministry of Industry and Information Technology, PRC, Chinese Academy of Sciences, Chinese Academy of Engineering, China Association for Science and Technology and the Chongqing Municipal People's Government. It is a professional event to encourage global exchanges of smart technologies and a high-end platform for in-depth international cooperation of the smart industry. The second Smart China Expo (hereinafter referred to SCE 2019) was held in Chongqing on August 26-29, 2019. General Secretary Xi Jinping wrote a congratulatory letter, and the letter was read by Vice Premier Liu He who attended the Expo and delivered a speech.

SCE 2019 adheres to the theme of "Smart Technology: Empowering Economy, Enriching Life" to pool collective wisdom and strength together. Through conferences, exhibitions, summits and contests, SCE 2019 showcased new products, new technologies, new business formats and modes of the global smart industry. Compared with the inaugural SCE, SCE 2019 highlighted its international engagement by benchmarking international standards, innovating concepts for hosting SCE and enriching service functions. By further expanding the scale, scope and level of foreign guests and enterprise exhibitors, SCE 2019 strove to constantly enhance its global influence and exhibit its professionalism. More than 100 top-level professional forums, results presentations and events were held during SCE 2019, presenting spotlights of the latest smart technology achievements worldwide including AI, big data, cloud computing, 5G and block chain. By organizing a series of practical and efficient investment attraction and promotion activities, SCE 2019 facilitated major project cooperation in the field of smart technologies. By establishing four interactive experience venues of Liangjiang New Area Lijia "Smart Eco-Town", Yuelai Smart Life Interactive Experience Area, Yubei Xiantao

International Data Valley & Smart Transportation and Auto-Pilot Demonstration Area and Chongqing Economic and Technological Development Zone (Nan'an District) Smart Valley Smart Technology Experience Area, which center on smart life, smart manufacturing and smart facilities, with over 50 real-life scenarios involving unmanned supermarket, smart medical care, hydrogen fueled vehicle and smart footpath, SCE 2019 comprehensively displayed the latest achievements in the smart industry and the vivid scenarios of future smart cities. At the same time, all venues and outdoor smart experience areas of Chongqing International Expo Center had full coverage of 5G network during the SCE 2019, making it an experience field of 5G ecology in Chongqing.

The Third Smart China Expo will be held in August 2020 in Chongqing. Chongqing will follow General Secretary Xi Jinping's important instruction, "continue to host the SCE with high standards, and enhance in depth participation of digital economy international cooperation", to pool collective wisdom and strength together. The smart era is an era of co-creation and sharing, and Smart China Expo is an international platform for win-win cooperation. As a "Land of Natural Beauty, a City with Cultural Appeal", Chongqing warmly welcomes all distinguished guests to attend the Expo, sharing new opportunities in the smart era and creating a better future of digital economy!
